

CASE STUDY

Buckswood School

Sports Hall, East Sussex

A full sports floor installation for a leading independent boarding school — a multi-use hardwood-effect court with basketball and indoor football markings, delivered to a school-holiday programme.

TOTAL FLOORING SOLUTIONS

PROJECT OVERVIEW

A Sports Floor Built for Every Fixture

Buckswood School is an independent day and boarding school near Hastings, East Sussex, with sporting facilities used daily by students across a wide range of ages and disciplines. Total Flooring Solutions was appointed to install a new sports hall floor capable of hosting basketball, indoor football and other fixtures under one roof, replacing a tired surface with a durable, multi-sport finish.

The hall is a focal point of school life — used for PE lessons, match fixtures, assemblies and events — so the new floor needed to perform to a sporting standard while being ready for immediate daily use as soon as term resumed.

Term-time

Handover before term restart

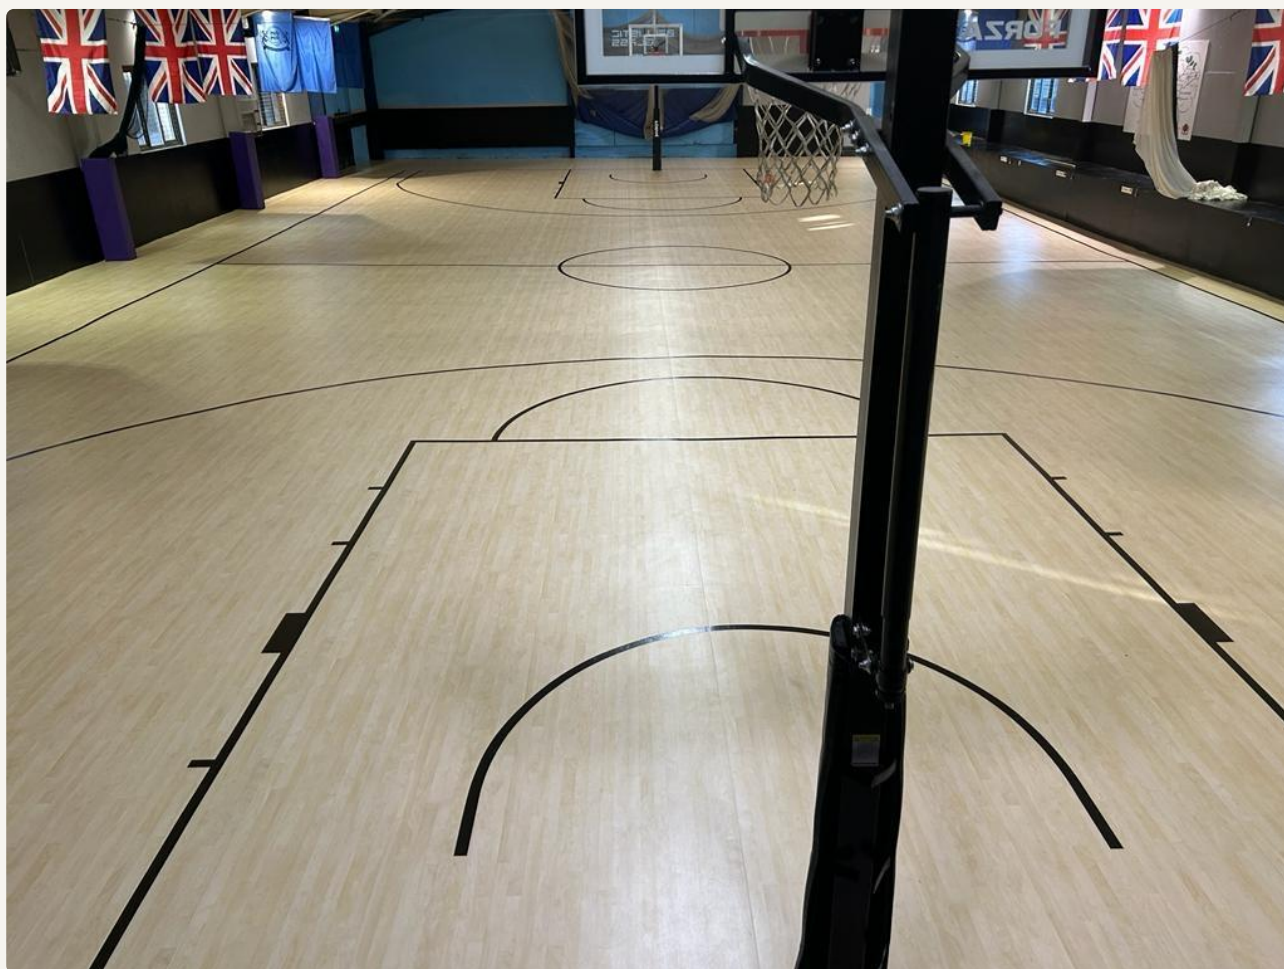

The finished sports hall floor: a light hardwood-effect surface with full basketball court markings, framed by the hall's existing seating and Union Flag display.

THE SOLUTION

Precision Markings, Match-Ready Finish

A hardwood-effect sports floor was installed across the full hall, chosen for its combination of grip, durability and the look of a traditional sprung timber court. Basketball key, centre circle and three-point lines were set out and applied with the precision needed for competitive play, alongside markings to support the hall's other uses.

The result is a single, consistent surface that supports everything from PE lessons to school matches, without compromising on the accuracy fixtures demand.

Court-side view showing the clean line work around the key and free-throw circle, with the basketball hoop and existing hall fittings in the background.

THE RESULT

A Hall Ready for Every Fixture

Buckswood School now has a sports hall floor that matches the standard of the rest of its sporting facilities — durable enough for daily PE use, and precise enough for competitive matches. The installation was completed to the school's own timetable, ensuring the hall was back in use without disruption to the wider school programme.

Total Flooring Solutions — sports hall and multi-use court flooring for schools and sports facilities across the South East.
